Experimental Physics Research Center

- Precision Nuclear Spectroscopy Group
- Plasma Physics Group
- High Energy Nuclear Physics Group
- Super-heavy Element Group
- Nuclear Astrophysics Group
- Ion Manipulation Group
- Nuclear Chemistry Group
- Radioactive Isotope Physics Group
- Nuclear Reaction Group
- Nuclear Structure Group
- Atomic and Molecular Spectroscopy Group
- Atomic and Molecular Dynamics Group

Materials Research Center

- Energy Material Group
- Radiation Effect Group
- Irradiation Technique Group
- Heavy-ion Microbeam Group
- Computational Physics Group
- Biophysics Group
- Space Radiobiology Group
- Radiation Medicine Group
- Medical Physics Group
- Theoretical Physics Group
- Medicine R&D Center

Center for Technical Development and Analysis Service

- 320 KV Highly Charged Ion Platform
- Analysis and Test Group
- Solid-State Detector Group
- Nuclear Electronics Group
- Crystal Detector Group
- Gas Detector Group

Accelerator

- Accelerator Physics Group
- Vacuum Technology Group
- Radio Frequency Technology Group
- Power Supply Technology Group
- Radiation Safety and Protection Group
- Ion Source Group
- Linac Center**
- Electron Accelerator Group
- Magnet and Mechanical Technology Group
- Beam Diagnostics Group
- Information Technology Group

ADS

- Nuclear Data Group
- Spallation Target Group
- Transmutation Chemistry Group
- Advanced Nuclear Material Group
- Reactor Physics Group
- Linac Group
- Cryogenic Technology Group
- Baiyin Industrialization Pilot Base
- Gansu Particle Beam Irradiation Engineering Center
- Gansu Irradiation Mutation Breeding Engineering Laboratory
- Lanzhou Kejin Taiji Co., LTD.
